

Riverland Trip Itinerary

Saturday 12 June

The Riverland provides a climate of much interest with dry & sunny weather well into Autumn, and as the long weekend in June moves us into winter, the Riverland can provide a welcome relief to the cold at that time of the year.

The Club has for some time, been keen on going a bit further afield and to connect with some of our members from this region.

With a discounted overnight stay in deluxe accommodation and some great local attractions to visit, as well as some dining together experiences, we hope you will be able to participate.
